**ColorBlaze® Royale Cherry
Brandy® Coleus**

*Solenostemon scutellarioides 'Royale
Cherry Brandy'*

Height: 28 inches

Spread: 16 inches

Spacing: 12 inches

Sunlight: ● ●

Hardiness Zone: (annual)

Group/Class: ColorBlaze®; Series

Description:

This stunning selection features beautiful red foliage; heat tolerant and low maintenance make it perfect for containers, hanging baskets, and borders; sun or shade this plant will showcase its eye-catching color all season long

Ornamental Features

ColorBlaze Royale Cherry Brandy Coleus' attractive serrated pointy leaves remain dark red in colour throughout the year on a plant with an upright spreading habit of growth.

Landscape Attributes

ColorBlaze Royale Cherry Brandy Coleus is an herbaceous annual with an upright spreading habit of growth. Its relatively coarse texture can be used to stand it apart from other garden plants with finer foliage.

This is a relatively low maintenance plant. The flowers of this plant may actually detract from its ornamental features, so they can be removed as they appear. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

ColorBlaze Royale Cherry Brandy Coleus is recommended for the following landscape applications;

Planting & Growing

ColorBlaze Royale Cherry Brandy Coleus will grow to be about 28 inches tall at maturity, with a spread of 16 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 12 inches apart. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in partial shade to shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil pH, but grows best in rich soils. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

ColorBlaze Royale Cherry Brandy Coleus is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
